Acknowledgements	i
Executive Summary	iii
Table of Contents	vii
List of Tables	xi
List of Figures	xv
Acronyms and Abbreviations	xvii
Chapter 1: Introduction	1
Purpose.....	3
Legal Authority and Requirements.....	3
Regional Water Supply Plans.....	4
Plan Goals and Objectives	5
Overall Water Supply Planning Goal.....	5
Plan Objectives.....	6
Planning Process	7
Public Participation	7
Coordination with Adjacent Districts.....	7
Relationship to Districtwide Water Supply Assessment	8
Planning Area Description.....	8
Accomplishments	11
Chapter 2: Demand Estimates and Projections	17
Urban Water Demand	18
Public Water Supply and Domestic Self-Supply.....	19
Commercial and Industrial Self-Supply	20
Recreational Self-Supply.....	20
Thermoelectric Power Generation Self-Supply	21

Agricultural Water Demand	22
Environmental Water Supply	23
Demand Methodology	23
Public Water Supply and Domestic Self-Supply.....	23
Self-Supplied Categories of Use	24
Changes from the 1998 Plan	25
Comparison with 1998 Plan Projections	26
Chapter 3: Resource Analysis.....	29
Chapter 373 Resource Protection Tools and Level of Certainty	30
1998 UEC Water Supply Plan	30
Level of Certainty	30
Demands	31
Resource Protection Criteria.....	31
Summary of Analytical Tools.....	34
Summary of Modeling and Results	38
Conclusions and Recommendations.....	40
Implementation	40
Minimum Flows and Levels.....	45
St. Lucie River and Estuary.....	46
Northwest Fork of the Loxahatchee River.....	47
Assessment of the 1998 UEC Water Supply Plan.....	50
Chapter 4: Issue Identification.....	53
Introduction.....	53
UEC Water Supply Issues.....	54
Increased Withdrawals from Surficial Aquifer System Limited	54
Surface Water Availability in the C-23, C-24 and C-25 Canals.....	56
Freshwater Discharges to Coastal Resources	56
Chapter 5: Meeting and Managing Future Water Demands (2000–2025)	61
Water Supply Development and Water Resource Development.....	61
Opportunities and Roles	63

Water Source Options and Strategies	64
Aquifer Storage and Recovery	64
Conservation	67
Floridan Aquifer System	86
Reclaimed Water	92
Reservoirs	100
Seawater	101
Surface Water	103
Surficial Aquifer System	112
Related Strategies	114
Unit Production Costs for Water Source Option Development.....	114
Conclusions	116
Chapter 6: Recommendations	119
 Water Resource Development Recommendations	121
Aquifer Storage and Recovery	121
Conservation	124
Floridan Aquifer System	129
Reclaimed Water	135
Reservoirs	139
Seawater.....	140
Surface Water	141
Surficial Aquifer System	151
Related Strategies	153
Summary of Water Resource Development Recommendations.....	156
 Water Supply Development Recommendations.....	162
Aquifer Storage and Recovery	162
Conservation.....	162
Floridan Aquifer System	162
Reclaimed Water	163
Reservoirs	163
Surface Water	163
Surficial Aquifer System.....	163
 Funding.....	164
Water Resource Development.....	164
Water Supply Development	165
 Relationship of Projects to Five-Year Work Program.....	167
 Regional Water Supply Plan Implementation Assurances	168

Glossary	175
References Cited.....	185
